It restores gray or faded hair to its vouthful color. It removes all eruptions, itching

The Journal takes very little stock in this namby pumby talk about Federal interterence, the rights of State sovereignty, etc. The great need of this country to-day is a stronger central government. This constant clamor about State sovereignty is a perpetual source of weakness to the Federal corerament and is gradually undermining all ideas of national authority. It is the first duty of a government to enforce the laws, preserve order and proteet life in every part of its domain. A government that cannot do this is inhereatly weak, and one that can and does not, is grossly unfaithful to its duty The surest way to destroy faith in the principle in Republican government is to so embarrass and weaken the general of States is ever dissolved, or our preseat form of government overthrows, is will not be through centralization, but through disintegration. THE action of General Sheridan in Louisiana has starred up the old rebel spirit of 1861. Democratic legislatures indignation. FROM WHEATLAND.

WHEATLAND, Jan. 7, 1875. EDITORS REPUBLICAN: -- Our quiet village was calivened on New Year's night by a rather unusual occurrent for us, namely, a festival, for the benefit of the church recently removed from what is known as the Mt. Gilead neighborhood to Wheathand. The church has been newly painted, re papered and renovated generally. A good fence encloses the large lot, and ample conveniences have been furnished for hitching purposes. An elevated platform in front, and a good sidewalk from the church to the public square adds greatly to the comfort and con-

venience of church-goera. But I commenced to tell you of our festival. It was what might be called an impromptu one. Some idea of the state of brutal ignorance and depravity existing among the operatives of Lancashire, England, may be gathered from a recent trial in which it was proved that a body of men took a poor dranken creature of a woman, carried her into an open field, where two of the ruffians brutally outraged her in the presence of their companions, leaving her in a semi-nude condition to die upon the field. On examination, the young men who witnessed ture is new being considered, and it is this foul and cowardly action, declared claimed will receive the approval of that they thought it a piece of fun. It is doubtful whether the most ignorant savage could possibly have surpassed in atrocity this proceeding.

SPRINGFIELD, III., January 11 .-The canvass of the vote for State Freasurer and Superintendent of Pub he Instruction was formally made is the half of the House of R promiting tives to-day the members of the Senate, Judges of the Supreme Court, and State officers being present. The rote for each county having bren read, the Speaker of the House appounced that Thomas S. Ridgway was duly elected State Treasurer, and S. M. Ester duly elected Superintendent of Public Instruction. They were then sworn into office by Chief Justice Walker, and the joint session ended.

The bood of Mr. Ridgway, State Treasurer, was examined and approved by the Governor this morning, and also by the Judges of the Supreme Court, who approved of the same and filed with the Secretary of State. The sureties on the bond, which is for \$500,000, are J. McKee Peerles, John D. Richeson, Charles Carroll (Mr. Ridgway's Democratic competitor), M. M. Pool and A. K. Lowe, of Shawneetown; Jac.b Bunn, John Williams Samuel H. Jones, George N. Black, W. D. Richardson, F. W. Tracey, A. M. Sims and Noah W. Matheny, of Springfield. The names of the sureties residing in Shawneetown represent \$1,250,000, while those in this city represent over \$3,000,000, a total security of nearly \$5,000,000 on this

One of the first points of the report will be that the committee were unable to find any evidence that the Republi can colored voters were intimidated during the last campaign in Louisiana, or that their civil or political rights were in any way interfered with, and that so far as the committee could learn from the evidence that was submitted to them, the election was an exceptionally fair and honest one. This conclusion is the one concurred in by all the members of the committee. Had Messra Phelps and Potter been alone on the committee they would have reported that, instead of Republicans being in similated by Democrats, the reverse was the fact. The white conservative voters were frightened away from the polls by the appearance of United States Marshals, accompanied by Federal cavalryman, a few days before the election or the day of election, which supply great alarm among the ignorant DEMOCARTIC OPPOSITION people in the country parishes, and pre vented scores of them from voting The committee report that the Conserv atives undoubtedly carried the State by a considerable majority, and that they elected a majority of the Legislature. The Chainet met in extra session to day to consider the President's message on Louisiana. General Grant made an exceedingly forcible statement of his views concerning the troubles at the South, and the only remedies he deemed sufficient to meet the case. He was most emphatic in the expression of his intention to suppress disorders at any cost, by all means that he could use under the laws and corsitution. The parts of the message were discussed, and it is understood there were no radical differences of opinion, and then when the session ended it was the bel of that no resignation would follow. It is thought the message will be sure to firmly unite Republicans there.

THE CANNING MONOPOLY. From the Prairie Farmer. Some two years ago an attempt was nade in Maine to establish a monopoly of the business of canning sweet corn and other vegetables; an industry, by the way, which has, in spite of opposition, become one of great importance in many of the Eastern States, as well as in some of the Western. The basis of the attempt was, of course, a patent. The case was first brought before Dis Massachusetts, but the judge refused Richard J Davies, Lexington, Ky.; RS

THE RUSH TO KANSAS AND COLORADO.

The indications are: that the rush to Kansas and Colorado will be greater than ever in 1874. The shortest way to reach the Far West is through St. Louis, the great Mississippi-Valley City, of over 450,000 inhabitants, and thence west over the St. Louis, Kansas City and Northern Short Line, which reaches all the great land grants in the West, and runs six fast Express trains, two more than any other road, between the Mississippi and Missouri Rivers. This road, in the last two years, has expended over two million dollars, besides earnings, in extraordinary improvement of roadway, in relaying its line with best quality of new steel and iron rails, on broad, new ties, and in passenger equipment, having substituted for ordinary cars new reclining chair coaches, with every appliance for comfort and safety, being elegantly carpeted and fitted with dressing rooms, with toilet conveniences for ladies, gentlemen and families traveling with children, free of any extra charge. Any ticket agent selling through tickets to the West will furnish tickets by this excellent route through St. Louis, over the St. Louis, Kansas City and Northern Short Line, the best and shortest to Kansas, Colorado, Nebraska, California and the Great West, it being the only line running through cars between St. Louis and Omaha. For map, circulars and time-tables address either F. A. Palmer, Indianapolis, Ind.; or P. B. Groat, St. Louis, Mo., either of whom will furnish any information desired.
